

# Panic and Emergency Pendant

Splashproof with Nylon Lanyard

The Watchguard Personal Panic Pendant can be used as a wireless medical emergency or personal help button for an elderly or less able-bodied family member. The WPANIC can also be used in emergency situations as a panic button.

The product can be learned into a monitored alarm system, to ensure that you are notified every time the button is pressed, keeping you informed if a family member requires assistance.

- Large easy push rubber button
- Nylon lanyard included
- Splashproof design
- Dipswitch coding
- Operation Distance: Approx. 200m Line of Sight
