Face Recognition

4K ULTRA HD

Upgrade to AI with Pro Series.

Professional Series: Artificial intelligence HDCVI DVR in 8, 16 and 32 channels

Transform your existing low-resolution surveillance system into an Ultra HD AI system with the Securview Professional Series. Upgrade coaxial based systems to HDCVI (high definition composite video interface) and gain access to AI functionality*, 4K recording at 7fps and cross compatibility for IP, analogue and other coax technologies. These DVRs are fantastic for existing coax cable system upgrades and for upgrades on a budget that wish to use existing cameras.
- Record up to 8.0MP (3840 x 2160) at 7fps (HDCVI)
- Supports analogue, HDTVI and AHD camera inputs
- Supports additional IP channels* via the network up to 8.0MP / 4K with up to 128Mbps incoming bandwidth
  *Addition of IP cameras disables the DVR's AI functions

- Up to 8 HDD bays for up to 128TB of footage storage
- AI human/vehicle detection via motion by DVR
- AI human/vehicle tripwire/intrusion by DVR
- Allow/block access with AI face recognition
  **IP cameras with built-in AI cannot use AI functions
